# Millennium Tower I.

## 1095 Budapest, Lechner Ödön fasor 6.

Datasheet of the property: <https://robertson.hu/en/property/20-millennium-tower-i>

The Millennium City Center in the heart of Budapest is one of the largest real estate developments in Central Europe, with which the region's leading real estate developer, TriGranit, has created a business and cultural district with a special atmosphere. The unique panorama of the Buda mountains and the Danube, the parks surrounding the buildings and the rich range of services make the new part of the city unique and exceptionally attractive. In addition to premium category office buildings and residential buildings, one of Europe's most modern cultural institutions, the Palace of Arts, and the National Theater can be found here. Thanks to the unique energy-saving technical solutions, the glass facade and clean architectural style of the Millennium Tower I Office Building won the unanimous recognition of the tenants and the Hungarian real estate industry. This is also proven by the fact that the building was chosen by well-known international companies such as Vodafone, Morgan Stanley, Boehringer Ingelheim, Provident and Lufthansa. The 18,000-square-meter Millennium Tower I Office Building, designed by György Fazakas, was built in 2006 as the first phase of the Millennium Tower Office Buildings.
